BANQUET CHAIRS

- Features 7/8" Square, 18-Gauge Tubing for strength and stability
- Cushion and back are made with fire-retardant, antimicrobial foam, treated for stain resistance

CAPACITY 500 POUNDS!

We Weld All Critical Joints We Don't Use Screws To Secure The Frame

...Creating a stronger -- and longer lasting bond -- for safety and longevity.

Stack up to 12 chairs!

A Critical Difference Critical joints are secured by welding them -- for maximum strength and stability! No screws!

Our beautiful, muscular Banquet chairs do not use screws to secure the frame -- the joints in our chairs are spot-welded for increased strength, protection and longevity. It's an extra step, but our chairs are built by skilled craftsmen who create the finest indoor event chairs.
