36" Round Plywood Cocktail Table Kit with Metal Edge

Rugged Okoume Plywood ToughEdge Construction

What Makes Our Tables Different: 13 Okoume Wood Layers

Our exclusive aluminum EdgeMAX Tables are made from 11 layers of premium-grade Okoume wood, plus two wood veneer layers -- that's 13 layers of wood which deliver exceptional strength. In addition, there are three applied layers of polyurethane to the top surface, and two coats to the bottom for a total of 18 layers of protection!

Over 80% of steel joints are precision welded by robots and sophisticated welds are added by hand. All welds are reviewed and certified by a master welder. And our Cold Formed" steel alloy bolts improve physical strength and longevity. The steel we use is recyclable at metal recycling plants across the country

We Bolt Our Table Tops To Their Frames (others don't)

Other Tables (screws)

Our Tables (Bolts)

They use screws to secure the table top to the frame. Not as strong or as stable!

Our frames and table tops are fastened with lock nut and washer.

Our tables are stronger beause every joint is extra strong. While other inferior tables use a single screw to attach the table top to the framing, our table tops are bolted to their frames, with a lock nut and washer before the nut. Supports ombined leg strength of 1,760 pounds

Our ToughEdge	Our reinforced ToughEdge protection strip surrounds the entire table and can withstand years of setup and breakdown.
High-Strength Bolts	Cold Formed" steel alloy bolts for improved physical strength and longevity

strength and longevity

11 Layers of Okoume Plywood

Not 8 or 9-Ply like other tables. Our Okoume Plywood Table is 11-Ply, plus 5 layers of polyurethane.

Not 6 Layers...

Most tables are built with six layers of ordinary plywood

Not 9 Layers...

Better tables use 9 layers of ordinary plywood.

We use 11 Layers

Then our high tensile strength aluminum-edge banding is applied, with tons of pressure! Leas have locking hardware and folding 16-gauge Galvanized Steel Legs.

Chivari SKU	TPLYRD48M-AX-T	
Material	3/4" Commercial Grade Plywood	
Shape	Round	
Size	36" Diameter	
Commercial-Grade?	Yes	
Folded Dimensions	2.25''	
Legs	16-Gauge, powder coated Steel	
Leg Color	Silver	
Replaceable Floor Caps	Yes	
Overall Length \	48''	
Overall Height	30''	
Overall Width	48''	
Tablecloth Size(s)	Round: 108" Rd, 120" Rd	
Recommended Seating	4-6	
Ships Assembled?	Yes	
Product Warranty	1 Year	
Weight Capacity	450 lbs.	
Item Weight	40 lbs	
Expected Lifespan	5-10 Years	
	Effective Ian 1 202
