Width	17 in.
Weight	32 lbs.
Warranty	One Year
Depth	20.5 in.
Depth w/Extension	28 in.
Product Rating	Rated for Commercial Use

What Makes Our Dollies Different?

How to move your stacks of Chiavari chairs is an important decision. Doing it faster saves money. Quickly setting up and tearing down events reduces payroll. Doing it carefully reduces unnecessary repainting and helps to keep chairs looking nice well into the future. Carrying chair stacks by hand may be your current solution but it's rough on the chairs and you put your employees at risk which may lead to workman compensation expenses.

Our Chivari Chair Dolly is perfect for transporting all of our chairs. The cart has two heavy duty, commercial grade wheels to help absorb bumps and is made of black powder coated steel for durability. The flip down lift bar makes it easy and quick for you to pick up and move your Chivari chairs.
