

Ivory and Green Armless ToughTex (Textiline) Bistro Chair

Aluminum Frame, Textiline Fabric, Mold Resistant & Rust Proof

Product Details

Color	Ivory and Green
Seat Height	18 in.
Chair Height	35 in.
Material Category	ToughTex, Aluminum Frame
Seat Width/Depth	16.75 x 17 in.
Stack Capacity	10
Arms?	No
One-Piece Construction	No
Chair Weight	14 lbs.
Overall Dimensions	18.5 x 18 x 35 in.
Units Per Pallet	48
Units Per Box	8

Safety, Materials and Construction

Safety Standards	Meets or exceeds ANSI/BIFMA standards
Frame Material	Aluminum
Finish	Non-stick, anti-static

We Add An Artist's Hand Painted Wood Grain...

Their Chair

Their chairs are painted with a flat color, with fewer layers. It's not as durable, not as protective, and it's just not very attractive.

Our Chair

Our frames feature an elegant, hand-painted wood grain layer. A clear coat of automotive paint provides a long-lasting seal.

Theirs: boring...

Ours: beautiful!

Our 1.5mm Thick Aluminum Tubing

Others use thinner, 1.1mm tubing. Ours is 36% thicker!

Our Chairs Built Better from The Inside Out! Additional Tubing Layer for Extra Strength

Other chairs use just 2 layers of tubing...we use 3 rows of tubing to deliver extraordinary strength, beauty and comfort.

Single Piece Construction Some competitors ship their chairs in pieces, requiring assembly. Their chairs are just not as strong or durable as ours. Single piece construction makes an enormous difference in overall chair integrity and beauty.

Our 1.5mm-thick Aluminum Frame While other chairs are built with 1.1mm aluminum, we add comfort and stability -- with a 1.5mm structural frame that won't rust or rot.

Our super-tough, 4-Paint Layer, Protective Finish First, a primer coat is applied to the aluminum frame to seal the surface and prevent oxidation. Then a layer of high quality automotive paint is applied, followed by a custom wood-grain layer which is hand painted by an artist over the paint layer. Finally, a Clear coat of automotive paint to protect and seal.

Additional Strength Our chair rates a 440 lb. weight capacity, and the frame is reinforced with additional under-seat cross bracing to provide strength and stability without adding extra bulk or weight to this classic design.
