Stack Capacity	10
Arms?	No
One-Piece Construction	Yes
Chair Weight	9.3 lbs.
Overall Dimensions	15.5 × 15.75 × 36 in.
Units Per Pallet	48
Units Per Box	8

Safety, Materials and Construction

Safety Standards	Meets or exceeds ANSI/BIFMA standards
Frame Material	Highest quality resin
Finish	Non-stick, anti-static

We use Only 100% New Resin In All Our Chairs!

Others may use recycled resin to save money – but that makes for a weaker chair. We use only 100% NEW Resins to insure that our chairs are the strongest, prettiest and most durable!

Built with Only NEW Resin!

We use ONLY NEW RESIN to craft our chairs. Others may use recycled resin. It's cheaper, but recycled resin can compromise a chair's strength.

What Makes This Chair Different?

One-Piece Frame	Frame does not need to be retightened. And no assembly is required.
Color-Matching Resin	The ToughResin™ chair series is not painted so exterior surface maintenance is easier. The BasicResin™ chair series has the color mixed directly into the resin so scratches are more difficult to detect.
Resin Density	High density resin for exceptionally durable chair.
Manufacturing	Our manufacturing process guarantees that no parts of the chair will ever loosen up and eventually wobble.
