### What Makes This Chair Different?

We fasten our clear chairs with 16mm bolts and hexagonal nuts. Each chair is made of a seamless, single mold -- with no need to polish or sand rough edges -- because there are no rough edges! And while other chairs are created in pieces, then assembled, our chairs are crafted in one piece. They are stronger, more resilient and pure clear -- chairs made of recycled

<b>We Use NEW RESIN</b>	We use 100% new resin (at 260 -280 degrees) for our transparent clear chairs, eliminating impurities inherent in chairs that use recycled resin, making them appear gray, blue or dark.
<b>The ProClear Difference</b>	The high-quality, crystal clear resin (polycarbonate PC resin plastic material) frame features fewer lines for a near invisible appearance. And there's never any chipping or scratching.
<b>Maintenance</b>	There's no sanding, repainting or staining needed -- ever. our chairs save time and money and deliver years of use.
<b>Safety Standards</b>
