We fasten our children's' chairs with 16mm bolts and hexagonal nuts. Each chair is made of a seamless, single mold --- with no need to polish or sand rough edges -- because there are no rough edges! And while other chairs are created in pieces, then assembled, our chairs are crafted in one piece. They are stronger, more resilient, and pure clear -- chairs made of recycled resin cannot match our quality.

**What Makes This Chair Different?**

**Clear Resin**

One-piece frame, wobble-free, construction. Scratches are less visible. Frame does not need to be retightened. UV treated paint prevents fading and discoloration.
