What Makes Our Chair Different?

Reinforced Steel Skeleton	A 16-gauge steel skeleton is what makes our Chiavari chairs stronger and more resilient than other chairs.
Color-Matching Resin	Our inner resin core matches the paint color -- so even tough scratches are virtually invisible.
Clear Coat Primer	We apply a clear coat primer and allow it to cure, ensuring a hard and resilient foundation.
Final Clear Coat	The finishing touch: An automotive shine! We apply a final clear coat to safeguard the integrity of the paint.
