Every detail... Down to the commercial grade, aluminum hardware, combining maximum strength with ultra light weight.

Our resin folding chairs are the next generation of the folding chair. Now with wood grain finish, they look like natural wood -- but our resin folding chair is stronger, easier to clean, does not require touch-up paint and has a built-in stacking feature. Quick setup, quick breakdown. Easier than wood, with all the natural beauty -- and wood grain -- of the real thing.

What Makes This Chair Different?

Highest Quality Resin

The secret to our chair's strength is the high-quality Resin. Our formula is blended into crystal polystyrene to increase its impact and toughness without sacrificing clarity and transparency. Outdoor events? No problem.
