

Gold Resin Oval Ring ThinVisible MonoFrame Chair

Product Details

TOUGHRESIN
MONOFRAME

Our chairs are made with 100% NEW resin

We use ONLY NEW MARINE GRADE RESIN to craft our chairs. Others may use recycled resin. It's cheaper, but recycled resin can compromise a chair's strength, cause unsightly bubbles, clouding or discoloration.

Seat Width/Depth	15.5 × 15.75 × 36 in.
Stack Capacity	10
Arms?	No
Chair Weight	11.5 lbs.
Seat Height	17.5 in.

Our "Mono-Frame™" ThinVisible Resin Chiavari Chair is a single piece made from a mold utilizing ToughResin — far tougher than ordinary resin products due to its increased tensile strength — ToughResin is double the tensile strength of regular resin! And while other chairs are created in parts and then assembled — and adjustment is constantly required — with our chairs, there's no assembly required and you'll never need to tighten or adjust the frame — so maintenance is next to zero.

What Makes This Chair Different?

One of the most popular chairs ever imagined — in stunning gold, and constructed using the highest grade material and a mono-frame design. Our Gold Oval Ring Resin Chiavari Chair is quite possibly the most beautiful chair ever, and yet it can take a beating and still look fresh and sophisticated — for years to come.

We Use NEW RESIN

We use 100% new resin (at 260 -280 degrees) for our transparent clear chairs, eliminating impurities inherent in chairs that use recycled resin.

Maintenance

There's no sanding, repainting or staining needed -- ever. our chairs save time and money and deliver years of use.

Safety Standards

Meets or exceeds ANSI/BIFMA standards

The one-piece, wobble-free frame has a capacity of 1,000 lbs, and these mono-frame chairs are perfectly designed to easily and quickly stack 10 high. You'll love the resin chiavari chair's non-stick, anti-static finish that — coated with UV treated paint that prevents fading and discoloration.
