

Gold Resin OZ Chair with Ivory Vinyl Seat and Removable Ivory Vinyl

TOUCHRESIN
MONOFRAME

Our chairs are made with 100% NEW resin

We use ONLY NEW MARINE GRADE RESIN to craft our chairs. Others may use recycled resin. It's cheaper, but recycled resin can compromise a chair's strength, cause unsightly bubbles, clouding or discoloration.

What Makes This Chair Different?

The OZ Chair has a unique and versatile feature the removable vinyl back. You see, the OZ Chair's back has two (2) removable back pieces that can be removed or added to change the look of the chair and the look of the room. When removed, you expose the beautiful gold oval back. However, for added cushioning and comfort, you can change the look of the room and add the ivory colored cushion back. It's a design and style choice that will give wedding planners and event venues more style and comfort choices from a single chair.

We Use NEW RESIN

We use 100% new resin (at 260 -280 degrees) for our transparent clear chairs, eliminating impurities inherent in chairs that use recycled resin.

Maintenance

There's no sanding, repainting or staining needed -- ever. Our chairs save time and money and deliver years of use.

Safety Standards

Meets or exceeds ANSI/BIFMA standards
