We Weld All Critical Joints
We Don't Use Screws To Secure The Frame

...Creating a stronger -- and longer lasting bond -- for safety and longevity.

Stack up to 12 chairs!

A Critical Difference
Critical joints are secured by welding them -- for maximum strength and stability!
No screws!

Our beautiful, muscular Banquet chairs do not use screws to secure the frame -- the joints in our chairs are spot-welded for increased strength, protection and longevity. It's an extra step, but our chairs are built by skilled craftsmen who create the finest indoor event chairs.
