

40-Inch Glass Top Bistro Tables: PE Rattan

40 Inches

Bistro

RESTAURANTS' Choice

Our Marine Grade PE rattan material can withstand rain, snow, UV light, heat and moisture.

PE rattan, or polyethylene resin rattan, is a synthetic version of natural rattan -- but won't rot.

PE rattan provides the natural look without compromising on structural integrity.

Our 1.5mm Thick Aluminum Tubing

Blue on White Medium Frame

White on Beige Light Frame

White on White Dark Frame

Our super-tough, 4-Paint Layer, Protective Finish First, a primer coat is applied to the aluminum frame to seal the surface and prevent oxidation. Then a layer of high quality automotive paint is applied, followed by a custom wood-grain layer which is hand painted by an artist over the paint layer. Finally, a Clear coat of automotive paint to protect and seal.

1.5mm-thick Aluminum frame While other chairs are built with 1.1mm aluminum, we add comfort and stability -- with a 1.5mm structural frame that won't rust or rot, further extending the life of our tables.
