

WORLD'S BEST Visit chivari.com or call us at (888) 757-9377 to learn about our all new World's Best Cushions!

Superior design and workmanship

Not all cushions are the same -- and spills are inevitable, but with The World's Best Cushions, spills don't become stains! We've treated each cushion with Dupont™ Teflon® so they're waterproof, dustproof, and oil resistant. And above all, they're a snap to clean. Time is money and you'll save both with The World's Best Cushion!

Call us about FREE Color swatches and samples!

Stains don't stand a chance! Wine, juice and other spills sit atop the cushion waiting to be easily wiped away!

Watch the video!

Crafted with soft tweed cover material and 69% denser foam!

Our new "World's Best Cushion" features wider zipper mouth, thicker foam, more luxurious materials, wide zippers and color-matched straps.

We also engineered the "World's Best Cushions" with a thicker, extra wide zipper and double color-compatible tabs. It's simple to remove and reinsert the foam.

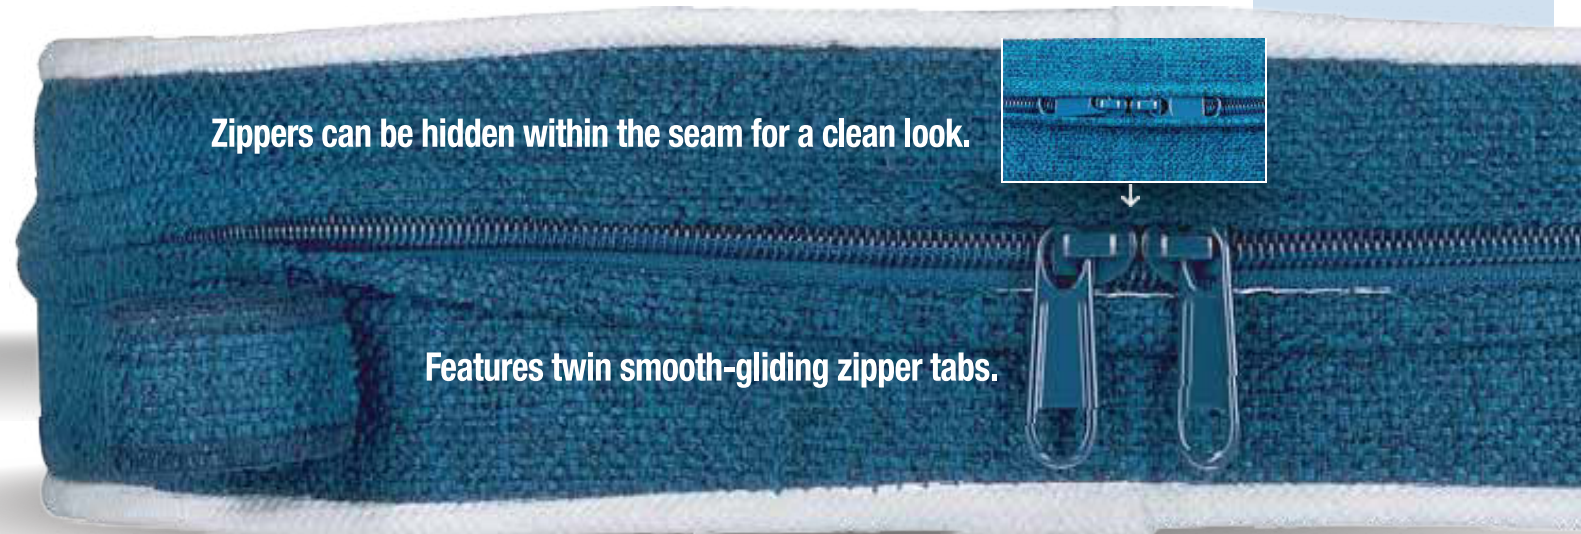

Standard Cushion
Popular standard cushion features a smaller opening.

New Larger Zipper, Larger Piping!

It's a Chivari innovation! The "World's Best Cushion" features a zipper that's THREE TIMES longer, and it's easy to conceal between the cushion and chair back. We've even added thicker, 5mm piping!

THE 7 WAYS WE'VE IMPROVED THE CUSHION!

- 1 Thicker Cushion**
Our new cushion is 2.5 inches thick. The old common cushion in the event industry is only 1.5 inches. Our new cushion line is over 66% thicker. Thickness means greater comfort for your event guests.
- 2 Better Fabric**
Fabric quality is measured in GSMs which means grams per square meter. The old common industry cushion is 170 - 200 GSMs. Our new line of cushions is 340 grams per square meter. That's an improvement of 62%.
- 3 Denser Foam**
Better foam density and quality. Low grade cushion foam can degrade and flatten in a short period of time. The old-school cushion foam is 1.6 lbs / square foot. We chose a foam with a density and quality rating of 2.7 lbs which is 69% denser. **And it's fire-retardant.**
- 4 Easy Removal and Cleaning**
The biggest challenge to laundering cushions is the difficulty of removing the cover. Our special cover has two high quality zipper pull tabs that slide smoothly. And the zipper length is about 75% of the cushion exterior.
- 5 Wider Straps**
Our velcro straps are covered with the same high quality tweed fabric as the cushion cover for a perfect match so the straps compliment cushion's beauty.
- 6 Thicker Piping**
Piping is the raised accent around the edge of the cushion and is typically only 2mm thick. Our new cushion line has 5mm piping and is available in a large number of colors.
- 7 Stain Protection**
Our cushions are treated with Dupont™ Teflon® Stain Guard, creating an invisible barrier, preventing liquids like coffee and wine from penetrating into the fibers. Cleaning is a breeze.

Our new World's Best Cushions are a perfect fusion of luxury and innovation that sets a new benchmark for comfort and style. Our cushions feature an impressive 2.5-inch thickness, offering 66% more comfort than industry standards and the soft Tweed fabric (at 340 GSM) is not only beautiful to the touch but 62% richer than traditional materials, adding an extra layer of sophistication to any occasion.

Compatible with ALL Chivari plus most regular size (excluding XL seat size) Cross Back, Bentwood, Willow and similar chairs with seat sizes from 15.5" to 16.5".

Shown: Royal Blue with White Piping.

Super Thick. Amazingly Comfortable.

Their Cushion is just 1.5 inches thick

Our new **WORLD'S BEST CUSHIONS** Now 66% THICKER!

Our new cushion features 2.5 inches of foam compared to the 1.5-inch standard and our current 2.0-inch version. And this cushion maintains its thickness and durability over time, outperforming competitors whose cushions flatten quickly.

29% Wider Fabric Covered Straps!

Other Cushion Straps
Just 5/8" Velcro straps. Our new World's Best Cushion straps are 29% thicker! And ours are fabric covered!

Our Cushion Straps
7/8" for added safety and longer life for the cushion.

TWEED

Pure luxury! We've completely re-imagined our cushion -- now packed with 2.5 inches of premium foam. It's a full one-inch thicker than standard, old-school cushions!
